

Please be careful about counterfeit products of anti-mold agent WASAACE®

• **Authentic Products**
(90-Day type)

• **Counterfeit Products**

We have confirmed that counterfeits of WASAACE®, Rengo's anti-mold agent which we sell as an agent, have recently been marketed in China.

Counterfeit products are fraudulent representations of Rengo's registered trademarks, and it's not affiliated with Rengo or our company at all.

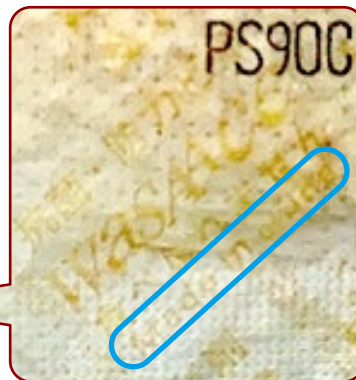

Counterfeit products not only have different specifications and performance than authentic products, but also have inferior quality compared to authentic products, and there is a high possibility that they will not fully demonstrate their performance as an anti-mold agent, which may cause damage to customers. In order to ensure the safety of our customers, we do not intend to take resolute measures such as legal measures against counterfeiters. However, we ask our customers to be careful not to mistakenly purchase these counterfeits.

We recommend that you should contact us, the authentic distributor, to use the anti-mold agent WASAACE® with confidence.

Features of counterfeit products

• Porous film is used in counterfeit product

• Printed as "Made in china" on packaging

• Printed "5G701" on the back

※ We assume no responsibility for counterfeit products purchased by our customers and used them. We ask for their understanding of any defects or accidents.
